

ZETA® Low-Power Wide Area Networks

Water Leak Sensor

Product Description

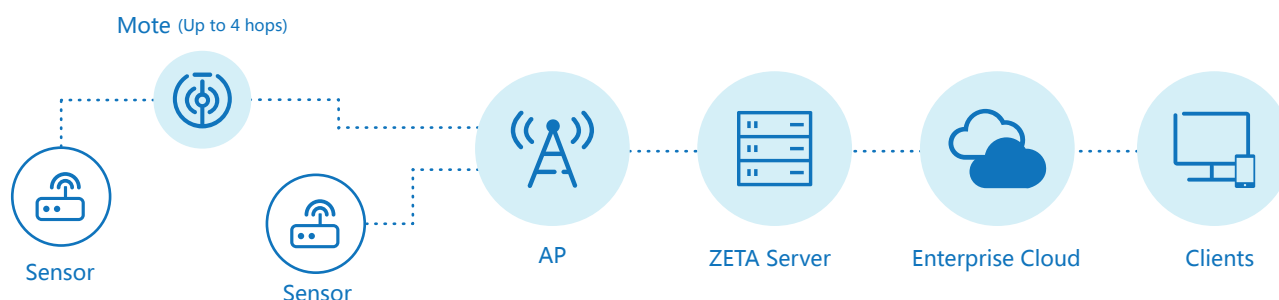

Water leak sensor with built-in ZETA transmission module, use electrodes to detect the leak water and generate dry contact signals. Immediately report alarms once it detects the leak water.

Application Scope

- Water leak detection, such as elevator pit water alarm, water collection overflow of air conditioner, overflow of sewage wells

Features

- Wireless transmission
- Battery-powered, low power consumption
- Easy to install, high sensitivity
- Reliable detection, real-time transmission

Product Parameters

Product No.	WDZ1ZT	
Wireless Features	Transfer protocol	ZETA
	Frequency band	Sub-GHz
	Transmit power	Comply with local regulation, maximum of 20dBm
Electrical Features	Power supply	Battery , 2*ER14505
	Battery capacity	2*2400mAh
	Stand-by current	≤10uA
	Working current	≤70mA
Physical Features	Size	66*55*36mm
	Shell material	ABS
	Waterproof level	IP45
	Antenna	External glue stick antenna
Working Environment	Operating temp.	-20°C~+60°C
	Storage temp.	-45°C~+85°C
